

# Marmalade Connections - referrals open

Marmalade Connections is a short term, 1:1 volunteer led project based on a social prescribing model. We are open for referrals based across Bristol, Gloucestershire, South Glos, Wiltshire, Somerset, North Somerset and the North East.

The project involves a weekly phone call for a person experiencing significant loneliness, with the aim of helping them establish new social connections.

The project has a rolling start date and runs for up to 15 weeks. See our website for criteria and to make a referral.
